**Freedom is something that everyone likes  
Maybe doing something that others may dislike  
Oh! Freedom is not only patriotic  
It may be doing something very exotic  
Keep in mind not to hurt others  
With your so called “right”  
Freedom is in classroom  
Even when you play dark room  
Freedom is something no one can steal  
And has a very effective seal  
Let’s have freedom in our thought and speech  
So that peak is the place we can reach.**

# FREEDOM

Here and there I roam,  
In search of balloons to fill with foam,  
Sipping a cup of honey,  
After all it looked funny.

I tried to solve in time an unsolvable mystery,  
Which was part of the boring History  
I enjoyed learning the animal kingdom,  
Because of my freedom.

It is an effect of Gandhi's lame game,  
Although many thought it was just a play for his fame.  
We now have the right to do activities for time pass,  
Even if it has a large mass.

It is all because of Sir Freedom,  
As he killed the rude Kingdom  
Salute to all the unsung heroes,  
For they have made Freedom my birth right.

# FREEDOM

**“Believe in yourself and hold on tight,  
This world isn’t going to leave you  
alone without a fight”,  
Said many, over the times,  
Even through phases of crimes.**

**An innocent girl, shackled and bound,  
Would she ever run free on the ground?  
An innocent boy, tied to belief,  
Would he ever get relief?**

**So finally, riddle me this, my friend,  
This question has plagued me to no end,  
Do we finally have something to gain?  
Or is freedom truly a boon or a bane?**

# FREEDOM

**What is freedom? It's having things your own unique way,  
Freedom is having your voice heard and always having a say,  
The beauty of freedom lies in the choices we all can make.  
True freedom is spontaneous unity, a bond no one can break.**

**Flying high not bound by chains of orthodox belief,  
True freedom lifts the load gives relief,  
Me, you, everyone we can all peacefully co-exist on earth.**

**This freedom must be protected even if at the cost of our life,  
Freedom brings peace freedom is not violence or strife,  
In this preservation of freedom, we must all give a hand;  
Freedom after all the very soul of India our motherland.**

# FREEDOM

**Is India truly incredible, a free country?  
Do the poor really enjoy the same privileges as the gentry?  
There are the questions that plague me as I now walk,  
On the path where 24/7, promises are made and politicians talk.**

**Are we not shackled by cuffs of our own making?  
Does freedom really mean that others' lives are for our own taking?  
Mere assumptions, fragments of broken thoughts alone I can now make,  
The future of brilliant, resurgent India is now at great stake.**

**The price of losing freedom so high we cannot even compare,  
A dictatorial saga is one for which we certainly cannot prepare,  
A barrage of thoughts overwhelms me, make me shockingly numb,  
It only makes me wonder: Is this true freedom or merely free-dumb?**

# FREEDOM

**1857 was the year when the grand race for freedom began,  
This movement enveloped all, be it old or young, woman or man  
A quest for freedom, fuelled by one man's burning passion,  
His path was not one of violence but of love and compassion,**

**At the altar of freedom, people put everything at stake,  
Overwhelmed by the fury, only so much could the invaders take  
Out of the ashes of misery rose the blazing diamonds of revolution,  
Rallying against injustice, freedom was the next step in humanity's evolution**

**Fear was there and so was treachery, betrayal and greed,  
What overtook them all was freedom-man's most basic need  
Independence was achieved, far greater than was planned,  
This is but the story of Bharat, our great, free motherland.**

# FREEDOM

**After a long wait,  
Our country became free  
Breaking all the shackles  
And the limiting boundaries.**

**The long sought freedom  
Was a priceless gain,  
And the road to achieve it  
Was filled with blood and pain.**

**The torturous Britishers are finally gone  
But again we are repeating the old story  
The rulers are our own men though  
Can we uphold the country's glory?**

# FREEDOM

Freedom is what we wanted  
Freedom is the price of bloodshed  
I ask do we really live up to it  
Look around you, look at the injustice that prevails  
In the name of freedom what is not done

Our forefathers wanted harmony  
And goodness to preside in our hearts  
That's what made them to burn the midnight oil  
To lay the foundation of the world's largest democratic country  
They didn't want riots in name of religion  
They had hope we the common man  
Raise our voices against the corrupt  
And remove the darkness to pay way

For our shinning Bharat  
She holds the moralistic values of this world  
We have been bestowed the decision of right and wrong

# FREEDOM

I was roaming around,  
Thinking what is freedom.  
I looked around and saw the birds fly  
And the squirrels run up and down the tree.  
I noted it down and saved it for later.

I entered the classroom,  
Just to see my friends playing around.  
All of them were careless and enjoying  
Taking notes about it and saved it for later..

When I finally sat down,  
It struck to me what was freedom.  
Freedom was in the nature concealed,  
Freedom was in my classmate's actions,  
I noted that down and understood,

Freedom is everywhere  
Hidden yet seen, carefree yet joyful  
And savoured and remembered.

**Living our life,  
According to our wish,  
No one forcing us,  
No one commanding us,  
No one ruling us,  
Taking our own decisions,  
This is FREEDOM**

**India is a free country,  
We just got independence,  
Actually from inside  
We are trapped by,  
Corruption, poverty,  
Which are not good.**

# FREEDOM

**Freedom lies in soaring high and surpassing even the greatest height ,  
Freedom lies in leading the way, being the lamp blazing bright.  
It's not freedom to curse or battle or to crib and complain,  
It's not freedom where only one idea or one person in the end remain.**

**Freedom lies in uplifting humanity and expressing great creativity,  
Freedom lies in staying positive in the face of daunting negativity.  
It's not freedom where the brave hearts are silenced with a shot,  
It's not freedom where women are pushed aside without a thought.**

**Freedom lies in every person enjoying the same, equal rights,  
Freedom lies in living life fully , finding good days in dreary nights.  
It's not freedom where an actor is let off the hook because of his fame,  
It's not freedom where politics is side lined and first priority's name.**

It's time that we set up and take our freedom back!**

# FREEDOM

India is my freedom and I shall have it,  
And I care a lot about my freedom.  
India would have not got freedom ,  
with out the efforts of freedom fighters like  
Gandhiji, Nehruji and more.

Freedom, freedom, freedom ,  
Is my very birth right.  
We only get freedom when we deserve it ,  
And I always strive for it.

India is a very independent country ,  
That's the reason behind our freedom.  
Freedom is a very unique thing  
That responds or effective to only few citizens

# FREEDOM

Freedom is my birth right and I shall have it  
Were the lines spoken by a great master.  
Freedom is what everyone wants  
Not getting it makes them fall.  
Freedom is a journey through which everyone has to pass  
Gaining it again and again makes everyone laugh  
It is a best way to do time pass.  
Much of it can make people cry  
To get freedom the best way is to try.

Try, try but don't cry cause  
It's not the only goal  
Much of it can make people Bold.  
Freedom was special  
Freedom is special  
Freedom will be special  
As without it only some can pass through their hard times  
But don't worry rather chill as it has to be in you in some time.

**Is being free really freedom?  
Or having no bounds is freedom?  
Is freedom really given or is it taken?  
Perhaps all your assumptions are mistaken.**

**Does water in a bucket feel free?  
When it can dance through the horizons in a spree,  
Are you letting your love free?  
Or are you tying them down?**

**Decades ago India got its freedom  
But did all Indians become free?  
Those who did were only some  
And still bound are we.**

The opportunities would've been near  
But then we just gain say.**

Just like this then chances fade

**What is meant by freedom?

No, it means a lot more  
A lot more than you can think.**

**Freedom, freedom, freedom, oh!  
Does this mean to live happily?  
Is this what everyone wants?  
I say no

A soul which decides to be free.  
Free from all kind of agony  
Agony which makes you feel sad,  
Fly free like a bird  
Cause they decide to do so  
When are you planning to do fly free,  
To experience the real joy of freedom.**

# FREEDOM

**We sapiens are like birds- Free and limitless  
But locked in the cage of our mindsets.  
We can run, dance, jump and fly  
But stay shackled till the day we die.**

**Why do we think this happens?  
It is because we set our limits and burdens  
We fear our failures, we fear our lose.  
At the end of the day, these are our flaws.  
The flaws that chain us, the ones that tie us down.  
This restrains us form being the king with a crown.  
The king of any world we would like to seize  
But only if we put our mind at ease.  
Believe we can dance, believe we can fly,  
Believe we can run ten million miles.**

**Because freedom is not constitutionally designed  
Freedom is an unrestrained mind  
People believe that to be free is to destroy  
But freedom is the only path to joy.  
Isn't joy the final goal; isn't bliss the last step?  
So don't wait! Break the shackles in your head.**

**White robes, walking stick and ahimsa was all it took,  
Dreams of freedom in front of which the invaders shook.

**Roars of 'Jai Hind' filled the minds of our brave hearts,  
This journey of freedom was off to a glorious start.  
Tears fell as victorious souls gave their blood, sweat and tears.  
The call to save our nation vanquished all the mortal fears.**
