

# Colours

*Colours, colours, colours, you are the best  
You make the Earth a little more beautiful  
You make this world a little more peaceful  
You make my life a little more special.*

*Colours, colours, colours, you are the best  
You make my dreams as beautiful as memories  
You make a crying child as peaceful as the snow  
You make my world as special as a surprise.*

*Colours, colours, colours, you are the best  
And I am just trying to find you in this black and white world.*

*Without me, life shall freeze.*

*Colours are a language of their own*

*So wild and so free.*

*When I cannot speak,*

*I let my colours do the work*

*For colours are*

*a language of their own.*

# Colours

*What would I do without colours?*

*Colours make me happy but they also make me sad*

*Some colours are in grass some are in flowers*

*Some colours are good and some are bad*

*Some colours are soft and sweet*

*Like blue and green*

*But some colours are bold and dark*

*Like brown and black*

*But the world is full of colours*

*And all the colours are nice*

*They all are needed*

*Like chappathi and rice*

# Colours

*My favourite colour is orange*

*It is the colour of spiritual knowledge*

*It reminds me of Swami Chinmayananda ji*

*Whose children are we*

*It is the colour of the sun*

*And it is also the colour of fun*

*It is also a fruit*

*And orange clothes make me cute*

*Leaves fall when they are orange*

*And it lies between the red and yellow range*

*And no colour can take its place whatsoever*
