

SOLDIERS

**Salute to those men
who believed they could,
who are very bold,
who stand to protect us even in the cold.**

**Salute to those heroes
who proved that enemies are too heroes
they're never scared
and always cared.**

**Salute to those fearless warriors
who stand like our barriers,
our protection is their main motto,
we must worship their photos.**

SOLDIERS

**Soldiers are awesome
They make our country blossom
The way they fight is outstanding
They have no chance to celebrate
They can't even move from their places
It's because of them that we are safe
They are very good
And at time don't even get food
They're awake all night
Just to fight
They are heroes
All thanks to the soldiers.**

**They are awesome.
They make our country blossom.**

SOLDIERS

**Soldiers are standing at the border
Protecting us from foreign orders.
They are the protectors of life
And barriers of the country.**

**They sacrifice their lives
For us and the country.
They don't care about the climate
If it's hot, warm, cold, snowy or cloudy.**

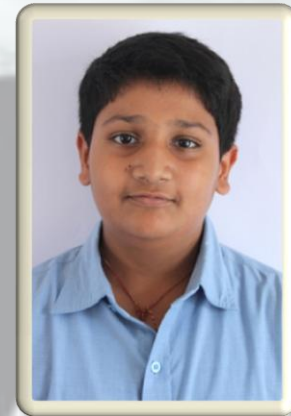

**They are brave and outstanding
Are amazing at shooting.
They're not part of celebrations
As they fight for the nation.**

SOLDIERS

**Standing at the edge of the border,
Protecting us from the foreign orders.
Having guns and launchers in their hands,
They don't even get to enjoy the wedding bands.
Leaving their homes behind,
They serve our nation being blind.
We are having a peaceful life,
While they're being poked with knives.
Bullets raging out simultaneously,
They work for the country enthusiastically.
Whether it's cold or hot,
Soldiers, oh soldiers! You stand so bold.**

SOLDIERS

**Soldiers are unique
Their courage is undefined
Severe consequences they face
For their unfathomable love and grace.**

**They are martyrs
Who are around the country's frontiers
To the world they prove
That Indians aren't going to move
From their holy hand.**

**They are the protecting shields
In all dangerous fields
Even on their deathbeds
"India is the best" they said.**

SOLDIERS

**We march ahead
We go ahead
We march safely
We go bravely**

**We travel long and long
And all wars last long
We fight and kill
Against the evil**

**We're always ready
To get the guns ready
Shoot! Shoot! They scream
Boom! Boom! The loud noise**

**We win and the country is happy
We restart our routine
And march ahead
As we go ahead.**

SOLDIERS

**Soldiers the protector of the country
Who guard morn to night,
Ever ready to fight against all the enemies,
They do not sleep because they want us to sleep.**

**I wish I could also be a soldier and fight for my country
They don't care for their lives
They stand in the border
Which is full of tension and fear
They live without their family at the border
But here we cry if we are alone at home for 10 minutes
Thanks to them!
The great and mighty soldiers.**

SOLDIERS

**Soldiers are the ones who fight for freedom,
They fight all day with no boredom.**

**Soldiers brave, soldiers tall,
Soldiers who get up when they fall.**

**We should thank them here and there,
Cause they guard us everywhere.**

**They camouflage behind bush and tree,
This is all to set India free.**

**So let us all take a vow loud,
As we can make them and India proud.**

**All I can say is we should support them like flawless birds,
I'll end my poem with these words.**
