

Sports

Drops of anxiety flowed right through my temple,

Was I going to do it?

Hair on my skin as erect as pillars,

Was I going to do it?

Boisterous cheers on my name was announced,

I couldn't fail them.

Gleaming eyes seeking for inspiration,

I couldn't fail them.

Reticence at once, as I got on the block.

I was going to do it.

The dive that would change everything,

I was going to do it.

On your mark, get set...

I am going to do it

**His knees were screaming with pain,
Lungs pushed to heights of strain,
His body was tearing apart,
He decided his efforts will not go in vain.
Nothing did he feel at the start,
For he was of something a past.
He was going to have no rest, for he had to work
Realized he, to run was truly an art
He reached the last 400m mark
He remembered his employer's bark
Faster the kid ran, to complete the marathon
A twelve-year old running against child labour**

Sports

Sports for me, means a lot.

Aiming and striking, running and fainting

Makes me feel energetic, active and what not.

This I feel, is a gift that is exciting.

When I hold my bat,

And see the bowler gaining speed

I feel the world is beneath me

I feel that my obstacle can be overcome.

Sports has taught me so many things

It showed me that I'm worth so much more

It gave me a belief about myself

It taught me to stand up for myself.

Sports has given me so much

It gave me friends and family alike

It showed me that I've always got somebody

To watch my back.

Being a sportsman is an honor

And I feel proud about it.

Sports

What is sports?

Is it an exercise?

Or is it leisure?

No, it is none.

What is sports?

It is a lifestyle.

The way one lives

The way one acts.

What is sports?

Is it an excuse

Not to study?

It is an impulse.

No, it is a mindset.

To think it

To live it

To be it.

Sports is many things

you think it is not

It isn't many things

you think it is

It is something for me,

And it isn't the same for you.

But to know what it is,

You must ask

So my question to you is

What is sports to YOU?

**I strived hard to soar high
To emerge like a colourful butterfly
Crest and trough I did face
And for medals I did chase.
The competition was fierce
And I broke down into tears
Then came light that stabbed my fears
I am even indebted to my sporty peers.
In the end I did achieve
For I never lost my imperious zeal
And I did carve my seal
In the milestone of sports**

Sports

For fitness I am the prime

With rules I strive

For those who are lazy

I have no time.

For speed, I'm the track

For heights, I'm the basket

For those who are passionate

I am the goal

With dedication you soar,

Immense hard work you score

Teamwork is all you need

And then I'm complete.

**I wasn't allowed,
I wasn't encouraged,
Still I went to become
Someone I was meant to be.
I believed in myself,
I knew I could swim.
I worked my heart and soul,
And achieved my dreams.
With medals in my hand
When I stood on the stand
I saw them cheering for me
And hence I proved, a "SHE" can be.**

Sports

**One day, I was playing alone
Kicking a football
And then rumbled, a big dark cloud
Hanging like cotton, off a hook
And then, a streak of lightning hit
Sending the birds away chirping
And a mad dog howling
And me trembling
Still my legs were glued to the ball
And all the mud flying around
I was drenched and covered with sweat
And still my legs were glued to the ball**

Sports

**The word sports means a lot to me
It is an expression I cannot fathom
Sports had made me oblivious to obstacles
Sports has made me invulnerable to objections
When I dribble the basketball down the court
I can feel blood pumping
And when I shoot a basket, with an air of confidence
I can feel my heart's pulse shoot up at miles per second
Sports has taught me to shoulder responsibility
Sports has taught me to battle for my victories
Sports has taught me to come back stronger
Sports has made realize that we are meant to be broken.**

Sports

**Energy and stamina all up for the big game
Not a minute to waste, just get on the court and play
I remember when I used to watch others play
Admiring the game and the players too
A sudden rush along my body
To see my favourite team winning my favourite game
At last the day comes when I stand in their shoes
Ready to make a move, but I fear, would it be right?
Don't know what's ahead in this 10 army match
But I will try my best to face the odds
The game went smooth and rough at times
But the team and I kept working hard
The years of training of practice paid off
To see my coach happy at our win in the basketball match**

**The wind kisses my feet
As I kick the ball across the field
It starts to rain,
But hey! What's the gain without pain?
When it thundered, I wondered
When the rain would lose it's wonder
So did I go but not the rain
Thought that day another day another game
The wind kisses my feet
As I kick the ball across the field
It started to rain now with applause
Of the fans who never lost a game
Now I play for the Nation**

**Messi they call me around the nations!
Now I wonder when it thundered
I live the game,
It never lost its wonder**

**The beautiful game of football,
90 minutes it takes to play, that's all,
It takes courage to play and step up,
Especially when you play for your country, in the World Cup
Ronaldo, Messi, Maradona, Pele,
All the big names in football.
They came to the stage from nothing,
Because they can stand up even if they fall.
Football is not just a game,
It's a revolution.
For me, it is the greatest that can be,
And I believe that it will lead us to evolution.**

**Ronaldo has been my inspiration from a very young age,
He is as fierce as a beast locked in a cage.**

**He has played for Manchester United, Real Madrid,
What the fans demanded he always did.**

**He is the king of Europe,
When the team is down he is always the one who gets up.**

**He is the most achieved football player ever,
One thing he has taught me is to look down never.**

**Never was a player born like him,
He is the man, he is the team.**
