Playing it from my childhood.,
Lot of matches played I
Success eluded from me.**

When I will be appreciated.
Playing sports is fun,
With fun comes discipline, fitness and strength.**

**Coach's words of strictness and wisdom
Made the player I am today.**

**Sports are best.
They make us rest,
For refreshment they are a must,
As they give us so much fun.
They keep our body fresh,
And our mind active.**

**It keeps us strong and calm,
And sometimes injures our palm.
In cricket we aim for the wicket,
Same way, in life aim for the golden ticket.**

Sports

Sports is a thing

You enjoy throughout your life

Running across the ports

Jumping over goats,

Like a toad,

Is sports.

Sports is all about enjoying,

But enjoy you will,

Only when you play with your heart.

I love sports but I don't know about you....

Football is a sport.

Played by the most,

Also played in the coast,

Everywhere from East or West.

I want to play football.

To my surprise, I was in team

My game won me a place there in the team.

To win a goal or to win a heart

You need to work hard selflessly.

Cricket is a sport

It's not played in the court.

I can do batting,

I can't do bowling.

Sports are good

It teaches one not to be rude.

Cricketers hit boundary,

Winning is secondary.

East or west cricket is the best.

Cricket is sport

Which I hate the most

It is so boring

I keep snoring

I have grown in the company of cricket lovers

One is my uncle and the others are my brothers

But none are haters.

I had a company of cricket of cricket haters too

But then I got blown away by all the fan clubs.

No choice now but to like it.

Sports

Sports is a thing which we play for fun.

Sports is a thing which makes us run.

Sports is a thing which make us shine.

Sports is of many types.

Some makes our muscles strong.

While some makes us lose weight.

While some also increases our height.

It makes us leave a fight and together we unite.

Sports so many,

We can choose any.

We can refresh our mind by any one of them,

And we can also have fun.

If my teacher asks me, studies or sports?

Only sports I will vote.

Sports can be anything,

Can be just playing with a ring.

Sports are very interesting

In which we can never do resting

My class boys play football

After having a ball, they say good ball.

Interestingly boys do running while girls do swimming

Don't you like sports?

**A game of 90 minutes,
Every move to be precise and synchronized.
When we watch a La Liga or Fifa,
With the spirit of Fūtbol in our hearts,
Popcorn in our hands,
A rush of excitement running through our nerves
Whether it is Leo or Ronaldo,
Who is going to make it to the top.**

A change of winning and losing,
It's about how better you get.

Which brings you fame.
It's not about your skills or the team,
It's about your character that defines you.
If you're good at it and others you respect,
Then you're the player perfect.**

**I am waiting for the bell to ring
Suddenly there's a 'tring'.
I rush to the court with my bag dangling on
I reach the court and see the coach.
The coach stares at me and asks,
"Did you do your warm up for today?"**

**I go to the track and see my friends running
They come and ask me to join along
I go back to the court and toss the ball
Then I swing my racquet and break the ball
I play to my content, to my heart's core,
With loads of training hardcore.**

Sports

I ran to the badminton court,
Only to find the usual.
To find it was fortified
By gangs all along.
They were players
Only caring about themselves.
They were never sportsmen,
Nor will they ever be.
They fortified both the courts,
Only allowing gang members in.
But when coach came,
They let us all in.
Any day you go,
You will know,
They're in
And you can just return.

They are all cowards
With nothing to do.
They are not sportsmen,
Nor will they ever be.
Doesn't everyone have the right to play?
To be sportsmen?
Let's all be sportsmen, not just players.
