**What if you don't know how to play?  
Let the people say what they want to say,  
You just try your best and play,  
Just believe in yourself and make your day.**

**There are many sports in this world,  
Like basketball, swimming and tennis,  
But to be a professional, you have to be bold,  
And just practice, practice and practice.**

**Face the challenge that is proposed,  
Practice and make sure not to lurk,  
Don't be sad if you lose, be composed,  
And engage yourself in real hard work.**

**Just choose your favorite one,  
And focus on it as much as you can,  
One day, you'll be the perfect one,  
And will be able to achieve what you can.**

**Sports is a thing that I enjoy for the whole day,  
Without getting bored  
Just play! Play! Play!**

**For me sports is just like a dream,  
That should keep on going  
Till I get exhausted  
And wish to quit.**

**Sometimes I wish to run like Ussain Bolt ,  
Sometimes I wish to swim like Michael Phelps,  
Sometimes I wish I could tackle like Messi.  
But at last I am just like me.**

**Badminton, swimming, basketball  
Special and exciting, all in all  
To make a basket, or score a goal,  
Always feels like winning some gold.  
It doesn't really ever get old.**

**To win, or to lose,  
Is not for us to choose.  
All we do is do our best,  
And then we can leave the rest.  
This is how we are out to test.**

**The cheering, and the jeering,  
How very enlightening.  
To have a medal to wear,  
And a trophy to bear.  
That feeling is beyond compare.**

**But most of all,  
Even if we do fall,  
We get back up,  
To go win that cup.  
Our goal is not to be a spoil sport  
But rather to be a good sport.**

**When I hear the word sports  
When I take such notes  
Whether it is hot or cold  
I love sports**

**When I come to the field  
Green and lushly field  
Cool and soothing breeze  
And I take my ease.**

**When it comes to soccer  
We all turn into Messi or Ronaldo  
So enthusiastic and energetic  
I love sports.**

**Swimming is my passion  
It should be taught with compassion  
Be it Spring, Autumn, Summer or Winter  
I practise to become a world class swimmer.**

**Swimming makes me feel like a fish,  
Except I won't be served on a dish,  
This sport doesn't only improve your health,  
But also saves me from certain death.**

**It provides me with an all round workout  
As long as no proper technique I don't float.  
No matter which sport I try in the years to come,  
Swimming will remain my favorite of them all and some.**

**Every ground is a war field,  
Every race is a new seed,  
Every man has his own dream,  
Which at first impossible it would seem.**

**It is a war of joy and tears,  
A conflict between expectations and fears.  
'That's after all a game' - people would say  
Not for me, it's my lone pathway.**

**I have lost a lot , but more I have earned.  
To fall is to rise, that's what I have learnt.  
Let go of the world, and the maximum you strive ,  
Don't stop when tired, fight until alive.**

**When I think of sports,  
Unity is what comes to my mind,  
Team work, will power and ability  
Which are all related to our mentality.**

**Of course our strength is needed too,  
But without these values no dream can come true.**

**Sports is what keeps us healthy,  
And builds our immunity.**

**So take every opportunity,  
Because our life is like a sport.**

Then you will lag behind and others won't.**

**Whistle blew,  
Players flew.  
In the hot sun  
For all the matches won.  
For every time those shoes I put on,  
All my worries are already gone  
Every time I play time flies  
The most content feeling in my heart it lies.  
Then win or lose  
I will stay brave,  
Because sports is all I crave.**

**I step on the block,  
My heart running a mile  
This race is against the clock  
To make the hard work worthwhile.**

**I look across the clear water  
The audience now cheering, a dull roar  
Its just me and the blue water,  
through which I shall soar.**

**The breathlessness, the burn,  
The tiredness, the nerves,  
All this you need to earn  
When you join this sport.**

**It teaches you the value of time  
It teaches you sportsmanship  
It makes you work hard  
For swimming , holds you in its grip.**

People say sports is a drag  
In our studies it makes us lag  
Running turns into a compulsion  
From the field, we feel a repulsion.

For me sports is freedom  
Leaves me with the feeling of fun  
Chases away the sense of boredom  
I love to run.

But I have an issue  
I can't play for life  
All it takes is an injury  
To make my family strict.

What about money , what about family?  
What about business? Come to reality  
But I want to run, I want to play,  
This thing called sports all day.

**When I am sad,  
When I am angry,  
It is to you I come  
And it is you who heals me.**

**When I see that finish line,  
When I kick that winning goal  
The satisfaction I get,  
Is beyond all control.  
In sports I can get all that I want ,  
Success, satisfaction, hype and galore!**
