**When you take the word Holiday  
It will be full of Invention.**

**I can meet my parents and grandparents  
Who are always loving and caring.**

**I can go to many places  
Like beach Monuments and Palaces.**

**Spending time with my lovely sister  
I wish a day could be as long as a semester.**

**When I go to my relatives house  
I always see a smile on their face.**

**I wish this could be a Holiday of joy  
With my playful and friendly boys.**

# HOLIDAYS

Holidays are fun filled  
When all our sorrows are killed  
Our minds are lit  
With a happiness kit.

Our excitement is immeasurable  
Just like an electric cable  
Curiosity takes over us  
Our needs become a must.

It is the time to discover new places  
And solve some mystery cables  
It is an unforgettable time  
As sweet and fresh as a lime.

Holidays are wonderful  
Sometimes blunder fool.  
It's you who makes it and enjoys it  
Everybody enjoys trips.  
We go with our family  
Joyfully and we have fun.  
We enjoy our holidays  
By watching movies which are full of animation.

We all love our holidays  
We love our families.  
In summer we enjoy and play out  
In winter we stay inside and play.  
We play with our sisters  
We miss our friends and teachers  
But after holidays we do miss our parents.

# HOLIDAYS

Vacation is a nice time which you spend with your family  
It is a period in which we get relieved from work  
And we buy toys from Hamleys  
We play with many toys and we make the vacation full of joy  
We play different games and  
We call our friends with different names and don't hurt them  
We eat different kinds of foods  
And we cut different woods  
We overcome our weakness and get all the strength  
We go for shopping in malls and road side shops.

We go to a fair and go on different rides  
We play different sports with full excitement  
and sportsmanship  
We go to places like Udaipur and Jaipur  
We go for parties and also buy lotteries  
We celebrate different festivals such as  
Christmas and New Years  
We meet our parents, grandparents and our relatives  
So enjoy your vacation and have a nice time.

**We enjoy our holidays  
It is coming, the winter days.**

**We don't have to wait for our summer holidays  
Here are the winter days.**

**We have fun in the mall  
Buying the things we love all.**

**We should go to Wonderla  
Having a fresh banana.**

**We should not spend time on mobile phone  
Spend time on our own lawn.**

**Don't go to the tree and cry  
Come to the tree and try.**

# HOLIDAYS

Holidays are the time to stretch, relax and yawn,  
We all love to snore and snore at dawn  
We love to lie down and munch on snacks  
It's the time we forget all our bag packs!

It's the time we munch on cookies from a tin,  
Hearing this will make you drool all over your chin!  
It's time to visit all our relatives  
And time to explore all our natives  
It's the time we forget all our troubles  
It seems as if we are blowing bubbles...  
We love to travel  
Visiting places would be such a marvel!
