

# HOLIDAYS

Holidays are so much fun  
But I don't miss to meet everyone  
I make some sand castles  
All day eat some waffles

Meeting my parents is the most awaited moments  
I want to see some monuments  
I had a lot of enjoyment

The fight between me and my brother was limitless  
And our memories are endless  
These holidays were a bunch of smiles  
And could not be found for miles.

# HOLIDAYS

Holidays are fun and great

They are never in a particular state

You can have them in Malaysia

Also meant to have one in Indonesia

We wear shade in summer

And boots in winds

We never know what comes

cause we have a holiday in the summer.

**It was the day,  
On the bed I lay,  
With a smile on my face  
Excited to visit new place  
And a google ready in my case  
All the things were packed.  
I stood up and clapped,  
Seeing the bus standing out  
'It's time for holidays' I shouted..**

# HOLIDAYS

When the birds sang at my window  
I was reminded of my sweet home  
And the bread and jam I swallow there.

Oh yes! I knew the vacation is drawing near,  
I could meet my mother  
And father who will pamper forever.

Vacations are beautiful  
When you get once in a while  
If you get always, you will feel sad.

**Vacation is one thing I enjoy the most  
No matter if we waste a toast.  
In holidays we are forced to go  
To our relatives to learn  
The wealth of love.**

**In the early morning we drink milk.  
In festivals we wear clothes of silk**

**We enjoy going in a car  
To buy our favourite chocolate bar.**

# HOLIDAYS

Filled with fun and enjoyment

Spending time with parents and friends

Visiting houses and temples

Going to beaches and hill stations

During summers and winters

You are going to miss it

When you will pass out

From the school

The best moment of school life

# HOLIDAYS

When I woke up, I checked out the date  
It was the day to go home  
As I reached home,  
All my wishes were done

I went for shopping  
And came only with a lollipop  
When I tried to watch TV  
I saw the set-up box was broken!  
But nothing mattered.

I realised the moments of joy  
That I can have at home with  
Parents and grandparents  
Who fill my heart with what I want

# HOLIDAYS

The day I wish for,  
Spending lots of hours  
To go back and enjoy  
And to play with my toy

To get love and care  
And to visit fair  
I wait and pray  
For my holiday to come

It is at home that my heart lay  
And I crave so much to say  
To my mom and dad.

# HOLIDAYS

Holidays are my fun days  
Playing football under the sun's rays  
I live, love and laugh  
But after eating ice creams I cough  
I love playing with my brother  
Who cares like a mother.

How I long for my vacations  
To come soon and often  
But this feeling of longing  
Is given by the school.  
Yes, I long for my holidays – fun days.

# HOLIDAYS

The holidays were good  
For I got to eat lot of food  
Served with love and care.

I did a lot of arts  
And I too played with a few darts

In between a bit of school I missed  
That I into parents ears I hissed

Though I woke late daily  
I never failed to pray to God happily

Winter and Summer I like  
That's when I get my holidays.

# HOLIDAYS

Holidays happening in May  
During it in the bed I lay,  
I enjoy then fully  
My tummy is never empty;  
With my mom's food that's yummy.

The next set of holidays in December  
These are the days I always remember  
They seem to go quickly  
I look forward to those days longingly.

# HOLIDAYS

They start in May  
And end in June  
Next one in December to Jan,  
Grandmother's home is what I think  
The best vacation spot  
Where there is lot of hay  
I play soccer all day.

A hug from Mom  
A story from grandmom  
A walk with dad  
And a talk with granddad

Oh dear holiday!  
Take me wherever you are!
