

# GARDENING AT CIRS

Gardening in CIRS is so much fun,  
We can also do it in the big hot sun  
When plants are plucked

We can't fix it with glue gun  
So we never go until we're done  
Gardening isn't a piece of cake  
Whether it's near the forest or lake

# GARDENING AT CIRS

CIRS gardening is so cool  
That you will forget even the pool  
Gardening is so helpful  
That will make the nature beautiful  
You will become little muddy  
But nature will become your buddy  
Your need to believe in the nature God  
That will make your life broad

So from now keep gardening  
Like we do at CIRS  
And keep your nature shining.

# GARDENING AT CIRS

Gardening, gardening is so good

Gardening, gardening is so much fun

Gardening, gardening gives us energy

Gardening, gardening makes a beautiful garden

Gardening, gardening makes us work hard

Gardening, gardening is so much fun

It makes our surrounding green.

# GARDENING AT CIRS

Gardening in CIRS is very fun  
After the work we had sun burn

The garden is so green  
I feel at complete peace

We learn about many plants  
And play with the ants

Gardening in CIRS is the best thing!

# GARDENING AT CIRS

There are many gardens where we do gardening  
We enjoy nature and love gardening at different times  
In the adventurous garden of CIRS it's so much fun

In a barren land we grow grass  
Different trees and flowers blossom

When I do gardening in CIRS my mind becomes calm  
There are many herbs and shrubs  
This is the garden  
This is the best!

# GARDENING AT CIRS

Here, I am in the green land  
To plant trees and make CIRS green  
The mud splashes on me and turns me into chocolate

I water plants and make them higher and higher  
The mountains surround me all through  
I enjoy life with the CIRS nature.

# GARDENING AT CIRS

CIRS is green and clean,  
The beauty of nature is like a queen's  
Sitting under the sun, is so much fun  
I wish I were a gardener here!

I'll dig the ground with a spade, till my dress fades  
Planting trees and crops,  
Looking at the rabbits hop  
Spoiling the nature is,  
Spoiling the future.

# GARDENING AT CIRS

Gardening at CIRS is such fun,  
We love to do it under the sun.  
Planting them with our friends,  
Fills our heads with awesome sense.  
Planting plants in the fertile soil  
Makes the garden look so royal.

When I see the trees grow so high,  
It makes me feel like I'm flying high.  
Planting roses soft as cotton,  
Feeling the dryness of autumn.  
Gardening at CIRS is such fun,  
We love to do it under the sun.

# GARDENING AT CIRS

Gardening in CIRS is so much fun  
We don't want to leave until it is done  
When the sweat rolls down my face  
I try to increase my pace.

We grow different vegetables and fruits  
And allow them to grow their roots  
We wait a several years for them to grow  
It fast forwards when the river flows.

I feel the joy seeing them bright  
It helps me maintain my diet  
As I took care of them from their birth  
I saw them growing from their first.
