

Wonders of the Winter

**The wind on my skin, crisp and light,
A breeze that dances through the air,
It's always been there, morning or night,
Welcoming coolness everywhere.**

**Snowflakes fall softly from above,
Their quiet beauty drifts unheard,
Children laugh and play, full of love,
Building snowmen and chasing each word.**

**The wonderful winter we all wait for,
Its magic brightens every day,
A season of joy, and so much more,
Filling hearts with warmth in every way.**

Wonders of the Winter

**November comes paving its way,
For the freezing cold and chilly winter days.
Hot brownies and warm sweaters,
Share stories and ong letters.**

**“Santa is coming”, we all cry,
Coming out of our cozy beds is all we try.
Snowflakes dance and swirl all around,
Covering the earth without a sound.**

Wonders of the Winter

The harsh cold winter is almost there,
Snowflakes drop that drop through the icy air.
But there is nothing that you have to fear,
Heat and warmth surrounds you near.

Days are short and nights are long,
Children make snowmans that stand strong.
The thick blanket we cover on the cozy bed,
Filling our hearts and mind with comforts spread.

There is a long break for us to enjoy,
A special time nobody can destroy.
Winters and cold with chilly air,
There are so many things that we have got to share.

Wonders of the Winter

Winter is the best time of the year,
We celebrate it with people who are dear and near.
When the snow drops down,
Everyone celebrates in the town.

With the new year around the corner,
Smiles and joy appear along with honour.
Christmas whispers in the frosty air,
Magic drifting softly everywhere.

Cool and icy breeze all around,
Whispers of winter's magic softly sound.
Ski in the sloppy snowy paths,
Laughing as we glide through nature's frosty baths.

Wonders of the Winter

Winter comes once a year,
To bring us joy and spread the cheer.
Christmas and New Year we celebrate,
Snowballs we throw and snowmen we create.

On Thanksgiving we pause to be grateful,
For all the hands that made our year so helpful.
Snowflakes swirl and dance around us,
As we gaze outside from the school bus.

Joy spreads wide when Santa arrives,
With his red sack and sleigh bells' chimes.
New Year brings fresh beginnings,
A hopeful time for bright new winnings.

Wonders of the Winter

**The fog fills the sky,
Beyond the clouds, the mountains lie.
The chilly breeze flows around,
Aloud but never found.**

**Christmas arrives with many gifts,
The of this will never drift.
Oh ! this could not get any better,
These are the Wonders of Winter!**

Wonders of the Winter

Winter so cold with snow slopes,
Silent hills wrapped in drifting hopes.
The air so windy and houses surrounded with snow,
It hums little songs winter seems to know.

People huddle up near the fire
Filling each soul with desire,
A desire for an everlasting winter.

As winter whispers, a little too much.
But my heart fills with warmth,
seeing the children I know
delight in their snowball fights.

A winter like so,
Feels warm like home,
A cup of hot chocolate
Before the night winds roam.

Wonders of the Winter

It's the time of year
When snow appears, and roads disappear
Cold wind is all that you hear
And a winter coat becomes my dear

By 6 at night, the sky would be dark
And by 5 in the morning, it would be bright
There isn't much time to go to the park
The snow-covered trees were a beautiful sight

Hot sweets and snacks we will be eating
Trying to bear the November chill
Wish I had the power of heating
But that would ruin the entire thrill

Wonders of the Winter

**It's the winter's cold,
Making the vibe very old.
However gloomy yet bright
Children play joyfully with delight.**

**Families come together,
With gifts and presents to treasure,
Creating bonds that last forever,
Filling hearts with joy and pleasure.**

**With our loved ones we enjoy,
Awaiting the new year's joy,
As we part, we cherish each cheer,
Holding memories we hold so dear.**

Wonders of the Winter

The wonders of winter are something that amazes
The cold wind blows, and the hot soup glazes
Winter comes with a cold, so true
It sends shivers straight to you

May warm clothes rid you of your cold
And warmth surrounds you in a good hold
We hold our hands and fit in together
And we built a snowman even in this cold weather

Wonders of the Winter

**As snow falls from the sky,
The cold clouds look as though they cry.
As winter arrives, swift and cold,
We all see the wonders of the season unfold.**

**The snow so pretty and white,
It is cold throughout the day and night.
As the water in the lakes start to freeze,
We can all enjoy the beautiful winter breeze.**

SAHANA HARIHARA

Wonders of the Winter

**Winter and the surprises it holds,
The stories are yet to be told.**

**Snow falling on the ground,
Laughter of Christmas, a soulful sound.**

**Winter is full of joy wonder,
We enjoy and explore together.**

**The magic cannot be discovered at once,
But to experience is a lifetime chance.**

Wonders of the Winter

Season of skiing, of snow and cold,
Snowmans with carrots on their nose.
When birds migrate and animals hibernate,
The sun too wakes up late.

Munchkins wait for the holiday's joy
And santa brings everybody and toy.
The chilled breeze gushes around,
Snowflakes all over the ground.

With long boots and sweaters we meet,
Bonfire evenings and smores for treat.
The wonders of winter are pure and sweet,
Filled with memories,laughter and treats.
